De Cotta law specialises in Criminal law and the defence of victims

For most of us in Spain we turn to a lawyer for life's more familiar issues; like buying or selling a property; making a claim for an injury; drafting a Will or managing the estate of a loved one during probate.

Although De Cotta Law is well positioned to help in all these matters and more, the firm is also highly acclaimed in the area of Criminal Law.

Criminal Law encompasses a broad range of matters and De Cotta Law is able to assist you and your loved ones with them all, including: Representation Of The Victims Of Crime & The Relatives Of Victims; Resolution of Drink Driving Prosecutions; Domestic Violence; Victims of Fraud & Documentary Falsifications; Insolvency and even Extradition issues.

De Cotta Law has two of the region's leading Criminal Lawyers including Javier Florido based in the Coín office and Francisco Javier Martín Martín based in Nerja. Recent successfully resolved cases have included:

Urban Corruption

Successfully defending a British citizen accused of involvement in a corruption syndicate.

Fraud

Successful representing a British citizen who paid a construction company to build his home, only to have to later demolish the property due to poor quality building practices.

The client won compensation and the builder was fined and imprisoned.

Murder
